

UDBHAV'26

BY ALTA SCHOOL OF TECHNOLOGY

25–26 April 2026 | Sage University, Indore | 24-Hour Hackathon

PARTICIPANT GUIDE — OFFLINE ROUND

01 | Arrival & Verification

Gates open at 8:00 AM on 25th April 2026. All verification must be completed between 8:00 AM and 9:30 AM. Please plan your travel accordingly, late arrivals may miss the onboarding window.

What to Bring

- Government-issued photo ID (e.g., Aadhaar Card, Passport, Voter ID)
- College / University ID Card
- Your Team Code — have it saved and accessible offline

Verification Rules

- All registered team members must be present at the verification desk together.
- Individual verification is not permitted — incomplete teams will be held at the desk until all members arrive.
- Any mismatch in identity or team composition will result in immediate disqualification.

Verification Window: 8:00 AM – 9:30 AM, 25th April 2026. No exceptions beyond this window.

02 | Accommodation & Meals

Accommodation

Accommodation is available on campus for all participants from 8:00 AM on 25th April 2026 through 11:00 AM on 26th April 2026. Dedicated rest zones (separate for boys and girls) are set up with mattresses, and pillows.

Meals Provided

The following meals are arranged and included for all participants:

Date	Meals Provided
25th April	Lunch, Evening Snacks, Dinner, Midnight Snack
26th April	Morning Breakfast

Note: Morning breakfast on 25th April is NOT provided. Please have breakfast before arriving at the venue.

Luggage Storage

A dedicated luggage storage facility is available at the venue. You may drop your bags after proceeding to the verification desk.

03 | Problem Statements (PS)

IoT Domain — Early PS Release

Teams registered under the IoT domain will receive their Problem Statement on **23rd April 2026**. This early release is specifically to allow teams adequate time to **source and arrange** electronic components and sensors before the event.

All Other Domains — PS Drop on Event Day

For all non-IoT domains, the PS Drop will take place at approximately 10:45 AM on 25th April 2026, following the Orientation Session.

Important: The PS Drop time is indicative. If the Orientation Session runs shorter or longer, the PS Drop time will be adjusted accordingly. Stay in your seats and await the official signal.

PS Selection Process

- There are 8 Problem Statements available across domains.
- Teams must select their PS using their Team Code within 15 minutes of the PS Drop.
- PS selection is final and irrevocable. Once confirmed, no changes will be entertained, except in the case of a genuine and verifiable reason reviewed by the organising team.

- PS selection is done via the official UDBHAV'26 website - udbhav26.in .

Technical Contingency

In case of any technical issues during the PS Drop — including website downtime or internet connectivity problems — please do not panic.

- Immediately approach the nearest volunteer or organising team member.
- All issues will be addressed promptly. Your PS selection window will not be penalised for platform-side issues.
- Every room will have a designated Technical Operations team member on standby.

04 | Judging — Three-Phase Evaluation

UDBHAV'26 uses a structured three-phase judging model designed to evaluate both your idea and your execution over the 24-hour build window.

Phase 1 — Idea Pitch

Teams present their idea to the judges early in the hackathon. Focus here is on clarity of thought and viability of the approach.

Criterion	Weight
Clarity and understanding of the Problem Statement	25%
Relevance & Impact (who does it affect, and how much?)	20%
Originality of the idea	15%
Feasibility awareness (do they know what building it involves?)	20%
Quality of the pitch (clear, confident, structured)	20%

Phase 2 — Working Demo Pitch

Teams present their built prototype to judges. Emphasis here shifts to execution quality, technical depth, and product thinking.

Criterion	Weight
Working prototype / demo (does it run?)	15%
Technical complexity relative to the time given	15%
How well the solution matches the problem	25%

UX / Design thinking (is it usable, not just functional?)	25%
Quality of the pitch (clear, confident, structured)	20%

Phase 3 — LinkedIn Video Submission

There is no live pitch to a judge in this phase. Instead, each team must shoot a short video explaining their solution with a demonstration of key features and upload it to LinkedIn.

- The required video format, structure, and hashtags will be shared by the organising team before this phase.
- Follow the provided format strictly — deviations may affect evaluation.
- This phase tests your ability to communicate your product to a broader audience.

Phase 4 — Grand Finale Pitch

Following the evaluation of all three phases, the top 10 teams will be shortlisted and invited to deliver their final and decisive pitch directly in front of the judging panel. This is the last stage of the competition — results and winners will be announced after this round.

Selection & Format

Detail	Info
Teams Shortlisted	Top 10 Teams (based on Phases 1–3)
Format	Live pitch to the judging panel
Announcement	Winners declared after Phase 4 concludes

05 | Mentorship

Mentorship is an optional add-on available to teams that opted for it during Round 2 registration. If you paid the mentor fee, you are entitled to dedicated mentor sessions during the event.

Session Structure

No. of Sessions	3 sessions per team
Duration per Session	20 minutes each
Mentor Contact	Contact number shared before the event — do not spam

What You Can Ask Your Mentor

- Problem validation — is your idea solving the right problem?
- Tech stack decisions — which tools, frameworks, or approaches to use
- Pitch & presentation feedback — structure, clarity, delivery
- Prototype feedback — usability, functionality, edge cases
- Anything you are stuck on during the build

Mentorship Limitations

Please read the following before your first session:

- Mentors will NOT build or code for your team. Sessions are advisory only.
- Sessions are strictly time-boxed to 20 minutes. Overruns will not be permitted.
- Mentors are serving multiple teams simultaneously — they are not exclusively assigned to your team.

06 | Code of Conduct

All participants are required to read and comply with the UDBHAV'26 Code of Conduct in its entirety. By registering and attending the event, you unconditionally agree to abide by it.

The full Code of Conduct document will be shared with all participants prior to the event. Standees displaying the Code of Conduct will also be placed across all hacking arenas.

Violations are handled by the organising committee. Decisions are final. For queries or to report a concern, contact the organising leads directly.
